

KC AMPS SHOW 2010 REPORT

Our recent show in Topeka, Kansas in conjunction with the MVPA was a great success. Everyone appeared to have a good time and we met a lot of modelers from out of town who came long distances to participate in the show.

Spending two days in the same facility as the MVPA Nationals allowed our participants to enjoy the sights and sounds of some well restored and one of a kind vintage military vehicles. The only running German RSO for example.

We had 83 models entered in the contest and the quality of the builds was extremely good. Medal rate was higher than average with most of the modelers taking home at least 1 medal. Our theme for this show in honor of the MVPA was "Wheeled Vehicles".

Best Of Award Winners

Best United States

Brian Stranghoner—M18 Hellcat

E-mail: webmaster@kcamps.org

KC AMPS SHOW 2010

Best German
